Master of Accounting (MAcc)
Bachelor of Science in Accounting/Master of Accounting Blended Program

A professional school offering graduate and undergraduate programs providing the educational breadth and depth for tomorrow's leaders of business, government, and not-for-profit organizations.

Mission
The Eberhardt School of Business develops knowledgeable, innovative business leaders in a personalized, experience-based learning environment and produces scholarship that contributes to disciplinary knowledge, informs teaching, and advances the practice of business. We share a set of underlying principles that govern our behaviors and our ability to achieve our mission. These include:

- Maintaining a student-centered learning environment
- Educating the whole person
- Stimulating intellectual growth
- Maintaining a mutually supportive community of faculty, staff and students
- Engaging external stakeholders
- Promoting excellence
- Being socially responsible
- Behaving ethically and with integrity
- Providing service to the university, community and profession

Degree programs offered by the Eberhardt School of Business are designed to fulfill this mission and to provide the educational breadth and depth tomorrow's leaders will need.

The Eberhardt School of Business was established in 1977 to fulfill the need for small, high quality management programs that could nurture the personal, professional and overall intellectual growth and development of talented men and women. The school currently has 25 full-time faculty and an enrollment of over 600 graduate and undergraduate students.

Small classes and excellent instructional facilities reinforce a highly personalized learning environment that encourages one-on-one interactions between students and faculty. Faculty and administrators are committed to making teaching the most important activity in the School. Outside the classroom, students choose from a wide variety of activities, including internships, student clubs and student government to further develop their leadership skills. The success of this approach to business and management education is reflected in the excellent job placement record of graduates.

For most business students, a major objective of their college education is to prepare for a successful career. Surveys of successful executives suggest that in order to meet the challenges and opportunities of the future, tomorrow's managers need a broad-based education that combines the acquisition of business skills in such areas as accounting, marketing, finance, and management, with a solid foundation in mathematics, language and the arts and sciences. In particular, business leaders emphasize the importance of acquiring interpersonal skills, especially the ability to communicate effectively. The academic programs of the Eberhardt School of Business have been designed to address these objectives.

Accreditation
The Eberhardt School of Business is accredited in business by AACSB International - The Association to Advance Collegiate Schools of Business.

General Academic Regulations for BS in Business Administration

Graduation Requirements
1. Students must fulfill the ESB minimum residency requirement of at least 32 units taken in the School.
2. There is a limit on extension course credits for courses offered through the Center for Professional and Continuing Education. The total ceiling on such units is six, with a limit of 3 in any one semester.
3. All prerequisites must be met before students enroll in any course.
4. Except for BUSI 107, students who take any course numbered above BUSI 100 must have junior class standing (56 units).
5. A student must receive a grade of "C" or better in any core course which is a prerequisite before taking a related concentration course.

Grading Policies
All courses required of all business administration majors must be taken for letter grade. ESB courses taken beyond those noted above may be taken on a P/NC basis, subject to the instructor's approval. The freshman
level Deans’ Seminar and junior level Career Development Seminar is offered P/NC only.

Students who receive a “P” in required courses that are taken before becoming a major in the ESB must petition to the Academic Standards Committee for these courses to be applied toward graduation requirements.

**Scholastic Actions - Probation and Disqualification**
1. If a student has a balance point deficiency up to -8 in the major or -10 in the University GPA, he or she is on probation.
2. If a student has a balance point deficiency larger than -8 in the major and/or -10 in the University GPA, he or she is subject to disqualification. Disqualification decisions are usually made at the end of the Spring semester, but a student who begins the Fall semester already on probation with a balance point deficiency of -8 or -10 or more may be disqualified at the end of the Fall semester if still at -8 or -10 or more at the end of that semester.
3. Any student who is on probation for three consecutive semesters is subject to disqualification.

Deficiency points are a measure of how many credit points a student with a GPA below 2.0 needs to earn to raise his or her GPA to a 2.0. Deficiency points are removed by earning more points than the minimum needed to achieve a term GPA of 2.00. Grades of "C" earn 2.00 points, thus, to reduce or remove deficiency points, students must earn grades higher than a "C." Further clarification of these (or other) policies may be obtained from the Eberhardt School of Business Student Services Office.

**Transfer Students**
Transfer courses must have a credit value of at least three semester units if they are to be applied to general education or major requirements. Courses from institutions on the quarter system must have a credit value of at least four quarter-units to be applied to the above categories.

Junior or community college students who plan to complete upper-division work in business at University of the Pacific should complete one year of introductory economics, one year of introductory accounting, a semester each of calculus and statistics, and a semester of business law. Students also should complete courses in expository writing, computer science, public speaking and the humanities. Not all community college courses are transferable, and each community college offers different courses. Please contact the Eberhardt School of Business office of Student Services for answers to questions regarding the transferability of specific courses.

**Admissions Information**
Additional information and specific admissions requirements is found in the section of this catalog entitled Admission Requirements or by contacting the Associate Dean.
